Continuation of Disposition of Claims: Claims pending in the application are 1,2,5-11,13-15,17-20,22-29,31-33,35,37-40,43-46,48-50,53-55 and 57-62.

**DETAILED ACTION**

The preliminary amendment filed on February 7, 2005 has been entered. By this amendment, claims 3-4, 12, 16, 21, 30, 34, 36, 41-42, 47, 51-52, 56, 63 have been canceled, claims 48-50, 53-55, 57-62 have been withdrawn from consideration, and claims 1-2, 5-11, 13-15, 17-20, 22-29, 31-33, 35, 37-40, 43-46, 48-50, 53-55, 57-62 are now pending in the application. Applicant asserts a plurality inventive features in the claims. Each individual features need extensive search and consideration. To ensure quality service for applicant's own benefit, the examiner suggests that a single feature should be examined in this application. The following is the election/restriction requirement:

***Election/Restrictions***

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

- a. Species 1: fig.4 (claims 5, 22, 37, 43) drawn to selecting valid signal from GPS first and then from terrestrial signal.
- b. Species 2: fig.2 (claims 13, 31, 38, 44) drawn to considering signal from wireless modem before considering signals from GPS.
- c. Species 3: fig.5 (claims 14-15, 32-33, 39-40, 45-46) drawn to position fix and dead reckoning.
- d. Species 4: fig.6 (claims 17, 35) drawn to I/O devices.

Art Unit: 3661

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-2, 6-11, 18-20, 23-29, are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
